Overview

This Forum brings together people delivering infrastructure resilience to discuss the latest developments and opportunities.

We welcome attendees from critical infrastructure organisations (lifeline utilities and critical customers), regional Lifelines Groups, CDEM Sector, research agencies and others working to improve New Zealand's infrastructure resilience and the wellbeing of our communities.

Note: We charge a small attendance fee to assist with venue and catering costs and to complement support from our valued sponsors. However, we are keen that this does not preclude people attending, so please contact lisa@infradecisions.co.nz if you would like to attend but are unable to cover full ticket costs.

Programme Highlights

- Feature Sessions:** Canterbury in Focus, Making the Case for Change, National Perspectives, Applying the Lessons in Infrastructure Recovery, Planning for the Big One: How Ready Are We?, Latest Research, Value and Pain of Coordination and Information Sharing.
- Interactive Sessions:** Opportunities for discussion and networking.
- Keynotes** – The programme is still being confirmed, but as always this will feature influential leaders in infrastructure resilience.
