

Engineering with a side of Conservation

Renée Coutts

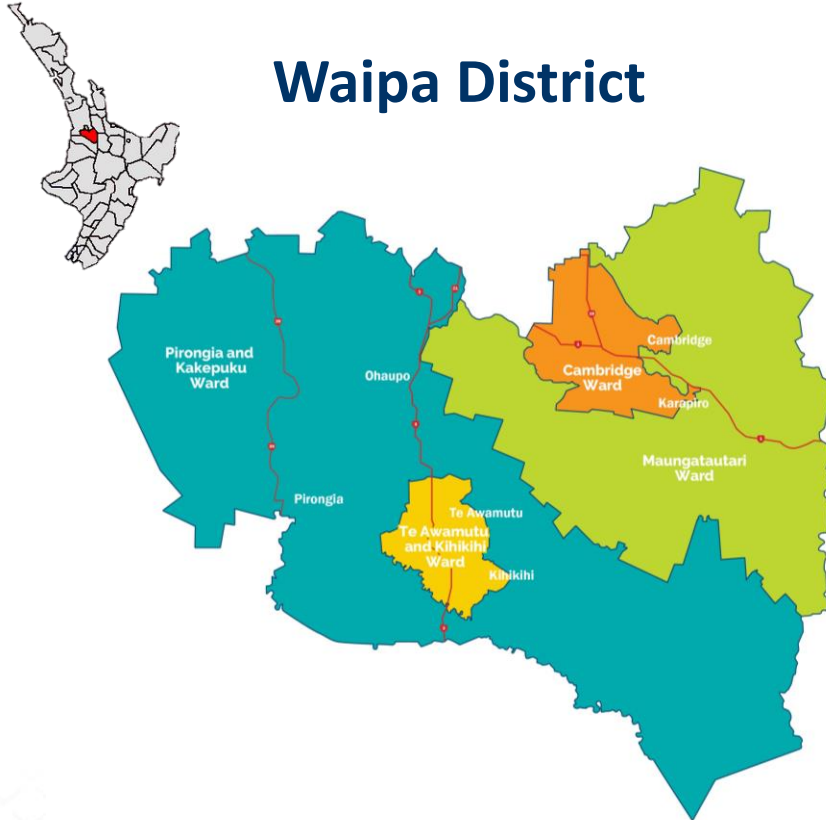

Compliance & Improvement Team Leader – Water Services

Setting the scene

The situation at hand

- Water restrictions, severe at times
- Two townships with different water woes (and attitudes).
- Reconsenting journeys & changes to regulations
- This is going to be costly!
- Need our community to actively support

Waipā District

Engineering, with a side of conservation?

Upgrades paired with water conservation and demand management

Upgrades

It's all in the delivery...

2014 - 2022

- Demand Management campaign commenced
- New dedicated Demand Management Officer role
- Large comms campaign associated
- School visits, treatment plant tours, industry engagement,
- Strong Smart Water linkage and messaging
- Increased water literacy and awareness
